

Webinar Roundtable # 2 of 2

The management perspective on Innovation Procurement of Data-driven solutions

Within this second EAFIP Round Table session a selection of top managers from several European Member States give insights into the management aspects regarding innovation procurement of data-driven solutions. They share their challenges and practical ways to successfully tackle issues like privacy and security aspects, integration with existing platforms and monitoring. *They discuss how data-driven solutions can support decision making processes, and how to manage solutions that require Machine Learning - AI and the transparency of algorithms and software.*

AGENDA
